AGILE SUCCESS

Streamlining Adobe Experience Manager (AEM) Staffing for Unmatched Results

Adobe Experience Manager

Objectives

Our client, a boutique marketing client faced the daunting task of rapidly expanding their AEM team to meet the demands of a critical project. They needed top-tier talent quickly, without compromising on quality or communication.

OVERVIEW

Agile Reviewed over **450 resumes**

Agile conducted over **80 video screens**

10 Top AEM Authors **Placed**

Over **4,000 Pages** Created

Solution

Agile's solution revolved around the meticulous hand selection and screening of ten AEM experts, ensuring each possessed the diverse skill set essential for navigating the complexities of Adobe Experience Manager. Once onboarded, this carefully curated team wasted no time in leveraging their collective expertise to drive results, swiftly creating over four thousand pages of essential material.

Their work, characterized by precision and attention to detail, not only showcased quantity but also quality, ensuring a seamless user experience and delivering tangible results for the client. In the end, Agile's tailored staffing solution empowered the agency to tackle their project with confidence, setting the stage for future success and innovation.

AGILE DIFFERENTIATORS

Communication

Agile facilitated clear and open communication channels throughout the staffing process, ensuring that the client's needs were understood and met with precision.

Quality

Each AEM professional placed by Agile was carefully vetted to ensure they possessed the skills and expertise necessary to excel in the client's project. Quality was never compromised. Half were later asked to return for an additional project

Speed

Despite the urgency of the client's staffing requirements, Agile delivered results swiftly and efficiently, enabling the client to meet their project deadlines without delay.
